Who we are

Save the children is as old as a great big tree, and its roots bring together you and me.

Our dream

To help the world see who you can be and help you be happy as far as you can see.

Our job

To make a world as safe as can be, where love and laughter is all you can see. We care about you and want you to know, when you care for others, smiles around the world will show.

Our rules

In all that we do with you, we want to show you responsibility, hope, teamwork, imagination and honesty.

There are five things we want to do, and here are some clues:

1. Make you a part of the team
2. Keep you safe from anything that can hurt you
3. Teach you about your body and how it works
4. Make sure you know you are special, no matter where you are from
5. Make sure you are ready for anything that comes your way

Corona has made it very hard for you and me. Some people have no money, no jobs and some even no family. You may not have had school for a very long time, but now that you're back, you have a very big smile. In this hard time for everyone, we need to come together because that's when everything gets better.

The world we live in

South Africa is in a lot of trouble. We don't have a lot of money but we have a lot of joy. We will look out for you, it doesn't matter if you are a girl or a boy.

Our 2024 Hope

Our hope is to do everything we can for you, make sure you're happy, healthy and can learn how to tie your shoe.

We will work with your friends who maybe don't have a lot, if they're here or there, we will make sure you are not all that they have got. Hand-in-hand we will walk together, and then we will be able to make your life better.

SAFETY

Nobody is allowed to hurt you inside or out.

LEARNING

Find new things to learn about.

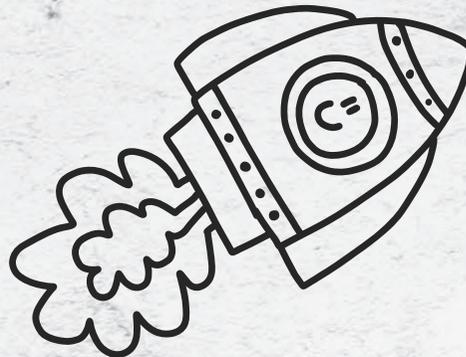

HEALTH

Learn about your body and what it does.

OUR SPECIAL GIFT

We all have special gifts and ours are for you, here is what we want to do. Keeping you safe and making sure you get what you need and making new ideas together to get to our dreams. We want to be your voice if you feel like you don't have a loud enough one because you are a very special someone. These are our gifts to you.

Our focus

We have three things we would like to share and no it isn't a gummy bear. These are things we will need, we need friends who can help us build and lead.

PLAY

1
2
3

IS VERY FUN.

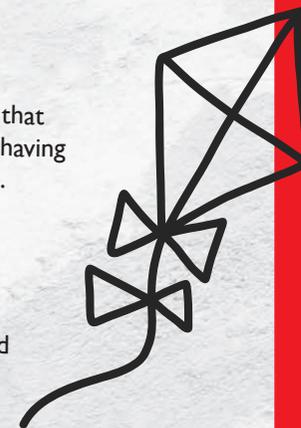

We want you to be a part of the team, we want to meet you, learn from you and listen to all of your dreams. We are always thinking of ways to make new friends every

IS ALSO FOR YOU.

We are always thinking of ways to make sure that we can take care of everything you will need, having enough money to fix the floor or plant a tree.

IS FOR WE.

Like we said, we are always looking for new friends who can see just how special you are and make sure you are heard near and far.

Money for our plan

We have our fingers in many pies, that way if one gets eaten or lost, we will still be alive.

We have friends from all over the world, friends that share our same goals.

We have friends who see us for how special we are, friends that want to help you – our little shining stars.

Standing together or standing alone, we want to make sure we stay afloat. Like we said we work in threes – 1, 2 and 3 will be where we put the money.

123

Our wins

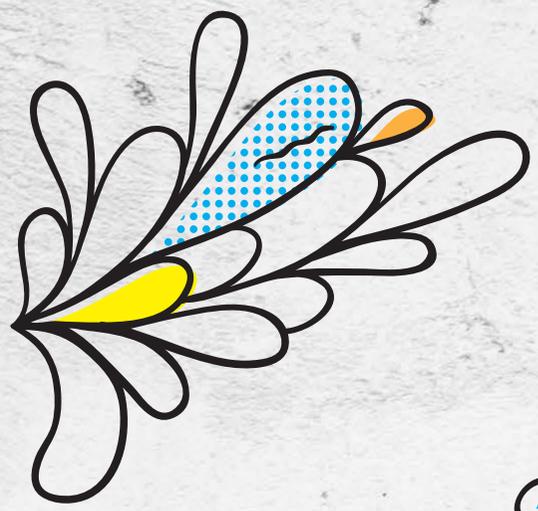

We have so many special friends, but there is one that stands out, whose name is MEAL who is a friend we cannot go without.

MEAL helps us make choices and see how those choices went, and helps us learn from our wins and that is a real present.

Now, we can teach others about what you need and how we can lead.

BOOM!

At the end

This story was for you to get to know us and what we want to do. Save the Children never wants you to be sad.

Our dreams are big and we can't reach them alone. We need people who are greater than even you know.

Together we are stronger. Join us as we make a world where you, the children, can live in wonder.

Thank you for letting us tell you our story, and we also want to thank our friends who do everything it takes for you – the children.
